

# BIG SPACES

WE MAKE DESTINATION

CIÒ CHE RENDE GRANDE UNO SPAZIO NON È LA  
SUA AMPIEZZA MISURATA IN METRI QUADRI,  
MA LE IDEE CHE LO VALORIZZANO, LE PERSONE  
CHE LO VIVONO.

*Santiago Calatrava*

An aerial, grayscale photograph of a city, likely Los Angeles, with a large architectural rendering overlaid. The rendering shows a long, low-rise building with a textured facade, surrounded by trees and pedestrian walkways. In the background, a dense urban landscape and distant mountains are visible under a clear sky. The overall tone is professional and architectural.
